

# DEVELOPING TOGETHER

## SOCIAL WORK TEACHING PARTNERSHIP

### Enabling Reflective Practice

This workshop is designed to support managers and practitioners to enable reflection within supervision. The same session was very well received in September so we are running for a second time for those who couldn't make the previous date. The session will cover:

- Professional standards and PCF requirements for reflection and critical analysis
- A refresher on 'What is Reflective Practice?'
- Barriers to reflection
- Key components of reflective practice
- Traditional and contemporary models of reflection practice
- How to support practitioners in their reflective practice

This will be an interactive online session and material for reading will be sent out prior to the session. The link to the online platform will be sent out to those signed up in advance of the event.

**Tuesday 24th November 10am-12pm**
